4 YEARS OF EXPERIENCE AS A SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

I am not bound by any programming language or any framework, I am a software engineer. I find solutions for real world problems through tech.

RELEVANT EXPERIENCE

TISO STUIDOS, Hyd

April 2025 - Present

Software Engineer

- Owned and maintained a transportation management platform enabling shippers to book loads and carriers to manage drivers, trucks, and bookings across web and mobile applications.
- Led end-to-end feature development and bug fixes across a multi-app ecosystem, ensuring consistency between web app, backend services, and two mobile applications.
- Implemented and maintained backend services and complex business logic using NestJS and MongoDB, including writing database migration scripts for evolving schemas and new features.
- Contributed to deployment and release workflows, setting up basic CI/CD pipelines with GitHub Actions and managing production deployments via Vercel.

DevRelSquad, Hyd

September 2024 - February 2025

Full Stack Developer

- Led engineering efforts for an AI-driven DevRel product, contributing across frontend and backend to build scalable, production-grade web applications.
- Tech: React, Tailwind CSS, Webpack, Python, Flask
- Designed and integrated LLM-powered services using LangChain and OpenAI APIs to support dynamic workflows and intelligent features within the platform.

Doigde Tech Solutions, Hyd

January 2024 - July 2024

Frontend Engineer

- Designed and developed a React-based ETL workflow builder with intuitive drag-and-drop capabilities and scalable UI architecture using React, React Flow, MUI, SCSS, and JavaScript.
- Built interactive data visualization components to model and manage complex ETL pipelines, improving workflow clarity and usability.

AMOGHNYATECHSOLUTIONS, Hyd

October 2021 - October 2023

Full Stack Developer

- Built and maintained scalable full-stack ERP and admin systems, delivering responsive UIs and secure backend integrations using React, Next.js, TypeScript, NestJS, Redux Toolkit, and Jest.
- Developed data-driven frontend solutions with embedded iframes to automate data collection, reporting, and visualization, eliminating manual workflows using React, Redux, MUI, and ApexCharts.
- Delivered MERN-stack web and mobile applications with user authentication, role-based admin panels, community engagement, and activity tracking using React, React Native, Node.js, Express, and MongoDB.

SKILLS

- Frontend Technologies
 - React.js
 - Next.js
 - HTML
 - CSS
 - SCSS
 - Tailwind CSS
- Backend & Server-Side Frameworks
 - Node.js
 - Express.js
 - NestJS
- Programming Languages
 - JavaScript
 - TypeScript
- Databases & Data Technologies
 - MongoDB
 - PostgreSQL
 - SQL
 - PL/SQL
- ORM
 - Prisma
 - Drizzle
- Cloud & Backend Services
 - AWS
 - Azure
 - Firebase
- Mobile Development
 - React Native
 - Expo
 - Flutter

Language: English, Hindi, Telugu, Marathi

EDUCATION

Bhivarabai Sawant College of Engineering & Research Pune	2018-2021
Diploma in Computer Engineering	
Kendriya Vidyalaya 2 AFS PUNE 32	2008-2018
Schooling, 1st - 10th
